

Safeguarding and Welfare Requirement: Health

Where children are provided with meals, snacks and drinks, they must be healthy, balanced and nutritious.

6.6 Food hygiene

(Including the procedure for reporting food poisoning)

Policy statement

We provide and/or serve food for children on the following basis:

- Snacks.
- Packed lunches (brought from child's home)
- Hot meals (provided by Downton Primary School).

We maintain the highest possible food hygiene standards with regard to the purchase, storage, preparation and serving of food.

We are registered as a food provider with the local authority Environmental Health Department.

Procedures

- The person in charge and the person responsible for food preparation understands the principles of Hazard Analysis and Critical Control Point (HACCP) as it applies to their business. This is set out in Safer Food, Better Business (Food Standards Agency 2011). The basis for this is risk assessment of the purchase, storage, preparation and serving of food to prevent growth of bacteria and food contamination.
- All staff follow the guidelines of Safer Food, Better Business. Hot meals that come from Downton Primary School are checked with a thermometer to ensure they are at the right temperature. This is recorded daily, as well as receiving a 'Servery Diary' sheet from the school themselves.
- All staff involved in the preparation and handling of food have received training in food hygiene.
- Food is stored at correct temperatures and is checked to ensure it is in-date and not subject to contamination by pests, rodents or mould.
- Packed lunches are stored in a cool place.
- Food preparation areas are cleaned before use as well as after use.
- There are separate facilities for hand-washing and for washing up.
- All surfaces are clean and non-porous.
- All utensils, crockery etc are clean and stored appropriately.
- Waste food is disposed of daily.
- Cleaning materials and other dangerous materials are stored out of children's reach.
- Children do not have unsupervised access to the kitchen.

Safeguarding and Welfare Requirement: Health

Where children are provided with meals, snacks and drinks, they must be healthy, balanced and nutritious.

- When children take part in cooking activities, they:
 - are supervised at all times;
 - understand the importance of hand washing and simple hygiene rules;
 - are kept away from hot surfaces and hot water; and
 - do not have unsupervised access to electrical equipment, such as blenders etc.

Reporting of food poisoning

- Food poisoning can occur for a number of reasons; not all cases of sickness or diarrhoea are as a result of food poisoning and not all cases of sickness or diarrhoea are reportable.
- Where children and/or adults have been diagnosed by a GP or hospital doctor to be suffering from food poisoning and where it seems possible that the source of the outbreak is within the setting, the manager will contact the Environmental Health Department to report the outbreak and will comply with any investigation.
- Any confirmed cases of food poisoning affecting two or more children looked after on the premises are notified to Ofsted as soon as reasonably practicable, and always within 14 days of the incident.

Legal framework

- Regulation (EC) 852/2004 of the European Parliament and of the Council on the Hygiene of Foodstuffs

Further guidance

- Safer Food Better Business (Food Standards Agency 2011)
